Glossary

Adjustments budget – Prescribed in section 28 of the MFMA. The formal means by which a municipality may revise its annual budget during the year.

Allocations – Money received from Provincial or National Government or other municipalities.

Budget – The financial plan of the Joe Gqabi District Municipality.

Budget related policy – Policy of the municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as a non-current asset on the Municipality's balance sheet.

Cash flow statement – A statement including only actual receipts and expenditure by the Municipality. Cash payments and receipts do not always coincide with budgeted timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period. The same principle applies with the cash receipts. The Municipality recognise the revenue on date of billing whilst payment may not appear in the same period; the receipt is receipt at date of receipt.

DORA – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable share – A general grant paid to Municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between Municipalities.

GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting; this Municipality will need to fully comply by the end of June 2012.

IDP – Integrated Development Plan. The main strategic planning document of the Municipality

MBRR – Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA – Local Government: Municipal Finance Management Act (56/2003). The principle piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current years' financial position.

Operating expenditure – Spending on the day to day expenses of the Municipality such as salaries and wages and general expenses.

Rates – Local Government tax levied in terms of the Local Government: Municipal Property Rates Act; Act 6 of 2004. The tax is based on the assessed market value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic objectives – The main priorities of the Joe Gqabi District Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure – Generally, is spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

MIG – Municipal Infrastructure Grant

MWIG – Municipal Water Infrastructure Grant

WSOS – Water Services Operating Subsidy

Vote – One of the main segments into which a budget. In Joe Gqabi District Municipality this means at directorate level. The votes for Joe Gqabi therefore are:

- Management Services;
- Financial Services;
- Corporate Services;
- Technical Services; and
- Community Services.

PART 1 – IN-YEAR REPORT

Section 1 – Mayor's Report

1.1 PURPOSE

The purpose of this report is to comply with the section 71 of the MFMA and the requirements as promulgated in the Government Gazette No 32141 of 17 April 2009.

1.2 BACKGROUND

In terms of section 71(1) of the Municipal Finance Management Act (MFMA) the Accounting Officer of a municipality must by no later than 10 working days after the end of each month submit to the Mayor of the municipality and the relevant Provincial Treasury a statement in the prescribed format on the state of the municipality's budget reflecting the following particulars for that month and for the financial year up to the end of that month:

(a) Actual revenue, per revenue source;

(b) Actual borrowings;

(c) Actual expenditure, per vote;

(d) Actual capital expenditure, per vote;

(e) The amount of any allocations received;

(f) Actual expenditure on those allocations, excluding expenditure on-

- (i) its share of the local government equitable share; and

- (ii) Allocations exempted by the annual Division of Revenue Act from compliance with this paragraph; and

(g) When necessary, an explanation of-

(i) Any material variances from the municipality have projected revenue by source, and from the municipality's expenditure projections per vote;

(ii) Any material variances from the service delivery and budget implementation plan; and

(iii) Any remedial or corrective steps taken or to be taken to ensure that projected revenue and expenditure remain within the municipality's approved budget.

2.1 In-Year Report - Monthly Budget Statement

2.1.1The progress in implementation of budget in terms of SDBIP can be seen from the tables below.

	July Actual	Aug Actual	Sept. Actual	Oct Actual	Nov Actual	YTD Actual	YTD Budget

TOTAL	(90,888,333)	(8,522,955)	(18,494,279)	(50,130,423)	(117,853,553)	(285,889,543)	(357,909,000)

Table 1: Operating Revenue per category

The municipality has raised actual revenue of R285, 889 million which represents 80% of total operating revenue against the year to date budget of R357, 909 million as at 30 November 2015.

The actual revenue raised for the month of November is R117, 853 million, this has increased when compared to the R50.120 million collected in November due to government grants and service charges received this month and this is highest amount of revenue received for the municipality in all the past five month of the current financial year.

The Government grant is the major contributor in the municipality's revenue as it constitutes 96 % of the total revenue.

	July	Aug	Sept.	Ott	Nov	YTD	YTD Budget

TOTAL	18,314,089	16,119,184	45,431,839	41,662,939	42,337,018	163,865,069	259,438,548

Table 2: Operating Expenditure per category

The municipality has actual spent 68% of its operating expenditure when compared to year to date budget of R259.438 million as at end of November 2015, of which R163.528 million is the actual expenditure as to date.

The Actual expenditure of the municipality for the month is R42, 337 million.

Detailed analysis follows:

Operating Expenditure by Nature

The figures in this section should represent the accrued amounts; in other words when the goods has been ordered; received or the invoice has been completed (reconciled with goods received and prices quoted) it should be captured as an expense. Currently the setup of the financial system does not cater for it in this manner. Shadow figures are reflected on the financial system once an order is issued. This action serves as a budgetary control mechanism and no actual financial entries are past. These figures cannot be used for reporting purposes. The amounts included as expenditure is currently only those for which a payment run has been completed.

• Depreciation for the month of November was not accounted for as this report was prepared and will be corrected and reported for in the month of December report to ensure that the monthly figures reported on are more reliable.

• Employee related costs

In this line item the municipality has spent R70, 948 million which constitutes 105 % when compared to year to date budget of R74, 738 million.

The variance of 5% in this line item is due to salary bonuses paid out for the month.

• Remuneration of Councillors

The year-to-date budget for remuneration of councilors is R2.512 million off which R2.100 million is the year to date actual expenditure.

More detail with regard to the breakdown of the employee related cost and Remuneration of councillors is provided in table SC8 in Page 28.

• Grants And Subsidies Paid

In this line item, the municipality is spending on behalf of its entity, Jogeda. The year to date actual expenditure on this line item is R2, 555 million against a year to date budget of R3, 289 million and this represents 78% of expenditure.

The expenditure for the month of November is R885, 612.

• General Expenses

In this line item, the municipality has reported an expenditure of R20, 256 million for the month of November 2015 and the year to date budget is R77.430 million against the actual year to date expenditure of R73,234 million. This figure includes R700, 000 for Repairs and Maintenance.

Table 3: Capital Expenditure by Municipal Vote

Capital Expenditure

The detail of this section can be found in Section 4 of this report Table C5 and also in Supporting table SC12; SC13a and SC13b.

TOTAL	2,911,728	1,477,136	2,672,551	37,308,893	14,837,493	59,207,801	130,250,797

Capital Expenditure by Vote

The capital expenditure recognised for the month of November is R14, 837 million being the actual money spent on provision of service delivery in water and sanitation.

The monthly ratio of capital expenditure to total expenditure is at 26 % which is slightly above the acceptable norm of 10% - 20%, this range reflects the higher spending of the municipality on infrastructure and acceleration in service delivery prioritising its expenditure towards current operations versus future capacity in terms of Municipal services, but could also hold financial sustainability risks if the infrastructure do not include both economic (revenue generating) and social type infrastructure.

MIG grant is the main contributor of JGDM's capital budget.

2.1.2 Other information

Additional clarity on the content of this report or answers to any questions posed will be given at the committee meetings by the Chief Financial Officer.

Section 2 - Resolutions

Recommended resolution to Council with regard to November 2015 in-year report is:

RESOLVED

- (a) That the Council take note of contents in the in-year monthly report for November 2015 as set out in the schedules contained in Section 4:
 - a. Table C1 Monthly Budget Statement Summary;
 - b. Table C2 Monthly Budget Statement Financial Performance (Standard classification);
 - c. Table C3 Monthly Budget Statement Financial Performance Standard classification (Revenue and expenditure by Municipal Vote)
 - d. Table C4 Monthly Budget Statement Financial Performance (Revenue by Source and Expenditure by Type)
 - e. Table C5 Monthly Budget Statement Capital Expenditure;
 - f. Table C6 Monthly Budget statement Financial Position; and
 - g. Table C7 Monthly Budget statement Cash Flows.
- (b) That the Council take note that the report was submitted to the Executive Mayor on 14 December 2015.
- (c) Any other resolutions required by the Council.

Section 3 – Executive Summary

3.1 Introduction

This Budget statement report for November 2015 of Joe Gqabi District Municipality was prepared via the SAMRAS financial system to comply with the Budget and Reporting Regulations and guidelines as issued by NT.

3.2 Financial Performance; Position and Cash flow

Section 4 of this report includes the tables with the detail figures.

3.2.1 Financial Performance

The detail of this section can be found in Section 4 of this report Table C2 (Summary per GFS); Table C3 (Summary per Municipal Vote) and Table C4 (Summary by Revenue Source and Expenditure Type). The latter is used to provide the executive summary.

3.2.1.1 Revenue by Source

It must be pointed out that in this section the figures represent the accrued amount and not actual cash receipts; in other words the amounts billed. The transfers recognised represents only that portion of the grants and subsidies of which the conditions has been met; in otherwise only reflect the expenditure and not the receipts.

The other sources of revenue that have material variances in rand value are:

• Interest Earned – External investments

The actual amount for Interest on Investments is R2, 371 million and this amount constitutes 144% of the year to date budget amount which is R1,648 million.

• Other revenue

Other Revenue is made up of contribution from LG Seta and revenue generated from Photostats.

3.2.2 Financial Position

The detail of this section can be found in Section 4 of this report Table C6 (Financial Position) below:

The financial position indicates what position Joe Gqabi District Municipality is considering things like the assets, liabilities and the equity at the end of November 2015.

The current accumulated surplus of the municipality as at 30 November 2015 is R1. 326 billion.

3.2.2.1 Current Assets

• Cash

The amount of R16 000 also includes cash floats in the form of petty cash and cashier floats. The rest is the "cashbook balance" of the primary bank account.

• Call Investment Deposits

Call investment deposits consist of investments made with various institutions when there is surplus cash available in the main bank account. These monies are then transferred to the general bank account and as when needed. The investment policy is used to determine what bank to invest money into.

A monthly investment register is submitted to management.

• Other debtors

The other debtors represent the movement which is due to monthly deductions from the staff member's salaries and ex staff members.

• Inventory

-The year to date value of inventory as at 30 November 2015 is R3.373 million.

The current ratio of the month is 0.92 of which is below the norm of 1.5 - 2.1, and this highlights serious financial challenges of the municipality and likely liquidity problems *i.e.* insufficient cash to meet short-term financial obligations. Current assets must therefore be increased to appropriately cover current liabilities otherwise there is a risk that non-current assets will need to be liquidated to settle current liabilities

3.2.2.2 Non-Current Assets

The year to date non-current assets is R1.377 billion which constitutes 93% of the adjustment budget of R 1.479 billion and this reflects that the municipality is still in line with its budget for this line item.

3.2.2.3 Current Liabilities

• Trade and other payables

The detail of this section can be found in Section 6 of this report Table C6 (Statement of Financial Position and SC4 (Aged Creditors).

The amount of the trade and other payables as at 30 November 2015 is R162,701 million and this amount includes creditors, provisions, and unspent conditional grants.

The actual total amount of creditors as at 30 November 2015 is R6, 296 million.

It must be noted that the age analysis is based on invoice date not invoice received. So in terms of the MFMA requirements the DM is complying.

3.2.2 Cash Flow

The detail of this section can be found in Section 4 of this report Table C7 (Cash Flow)

The cash flow statement of the month indicates that the municipality has ended the month with a negative cash balance of R1, 432 million.

3.3 Remedial or corrective steps

The remedial or corrective steps are listed in order of importance below:

3.3.1 Bank reconciliation

The daily automated bank reconciliation is functioning but we have faced challenges with it which led to us reverting back to the manual bank reconciliation. However, the information is derived from the system and the necessary journals are identified early and processed as and when they occur.

3.3.2 *Monthly Procedures*

To get the in-year figures more accurate the monthly actions with regard to the following have been instituted:

- Contributions of medical aid for pensioners;
- Creditors and Debtors reconciliations
- VAT reconciliation;
- Depreciation;
- Short term portion of long-term liabilities; and
- Recognition of interest earned both for call deposits and non-current investments
- Identifying incorrect allocations and wrong vote classifications

3.3.3 Recognition of Trade payables

There is a monthly integrity report that is throwing exceptions on the creditor's module. This matter has been reported to the relevant manager and is being addressed.

3.5 Conclusion

JGDM had many challenges during the last financial year due to the effects of taking over the water and sanitation services from the local municipalities. SCM issues like getting suppliers and making new arrangements have had challenges. These are expected to normalise.

The daily cash flow analysis is an issue that together with the daily bank reconciliations is assisting the Finance Department to continue with its determined goal of turning the cash flow crisis around. However, an aim for the finance department is to have the daily cash flow generated directly from the system and not to be done manually.

The fact that the asset module and the payroll module of SAMRAS are not being used results in the SAMRAS system not being utilized to its full potential. Management is in the process of investigating this matter. The use of these two modules has many benefits and will eliminate any integration errors. A project plan is in place to implement these.

The audit for 2014/2015 has been completed and the municipality received a clean audit results.

4.1.2 Table C2: Monthly Budget Statement - Financial Performance (standard classification)

(This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Subfunctions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organisational structures used by the different institutions.)

PART 2 – IN-YEAR REPORT

Section 5 – Debtors' analysis

5.1 Supporting Table SC3

The table below shows debtor's listing from Local Municipalities and billing information is journalised monthly. The debtors are very high as no bad debts have been written off.

Debtors are not being managed by means of the SAMRAS system. The figures on the table below are not accurate as the debtor's list is also not being balanced to the General Ledger. The municipality is in the process of resolving this issue.

Section 7 – Investment portfolio analysis

7.1 Supporting Table SC5

The investments of Joe Gqabi are represented by the investment in the entity Jogeda and a zero coupon investment at DBSA. The current investment register will be changed to make provision for call investment deposits (Deposits shorter than 90 days); Short term investments (Deposits longer than 90 days but shorter than 12 months) and non-current investments.

Table SC5 correctly represent only the non current investments to the value of R 3.305 million.

			Type of	Expiry date	Accrued	Yield for the	Market	Change in	Market

Total Capital Expenditure on new assets 1 – 234,186			130,053	70,845	54.5%	234,186

• SC13c: Expenditure on repairs and maintenance by asset class

The capital budget projects or items should be split between new and replacement. The original approved budget did not provide the detail in order to do this. At present all capital projects/items is captured as if it is new assets.

Section 11 – Material variances to the SDBIP

11.1 Overview

No comments apart from those already mentioned in the executive summary.

Section 12 – Other supporting documentation

12.1 Other information

None

Section 13 – Municipal Manager's quality certification

QUALITY CERTIFICATE	
I, ZA Williams, the Municipal Manager of Joe Gqabi District Municipali certifies that:	ty, hereby
x the monthly budget statement;	
quarterly report on the implementation of the budget;	
mid-year budget and performance assessment;	
For the month November 2015 has been prepared in accordanc Municipal Finance Management Act and the regulations made a Act.	
Print Name:	
Municipal Manager of Joe Gqabi District Municipality (DC14)	
Signature:	
Date: 14.12.2015
